DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 26-49 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: They are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the new claims describe a method of updating of a secret that is shared amongst a plurality of users that do NOT follow the method for key distribution in a hierarchical tree put forth in the originally examined claims, and the method for key distribution of the originally examined claims may be used amongst a plurality of users that do NOT follow the method put forth in the new claims.
2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 26-49 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
3. The amendment filed on 22 December 2004 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because of the reasons set forth above
4. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in
